1. Applicant's election without traverse of group II in Paper No. 12 is acknowledged. This application contains claims of group I drawn to an invention nonelected with traverse in Paper No. 12. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 13,14 are rejected under 35 U.S.C. 102(b) as being clearly rejected by US patent # 5774882.

4. Figure 1 of the patent teaches of converting credit card forms to electronic format including a receiving (fax or mail), reading, processing and making the forms available for subsequent processing. Moreover, the patent teaches a workflow contingent on flagged content. (column 3, lines 28-30).

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3624

6. Claims 13-14 and 19-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent # 5,774,882.

The patent fails to teach each of the species of flagged content and each of the species steps of making the forms available. It would have been obvious for one skilled in the art at the time to have adopted these steps as the art taken teaches all the routine logistics of credit card application processing. Adoption of any of these steps would increase efficiency.

Respectfully;

By,
